

DURABELLA™

3 Plant Combinations

- Having the right ingredients is the first step in creating a successful combination
- Each recipe is a mix of varieties that were tested for great performance, blend well together and last for the garden consumer

Plant liners in the middle

Use only one liner of each item in the recipe

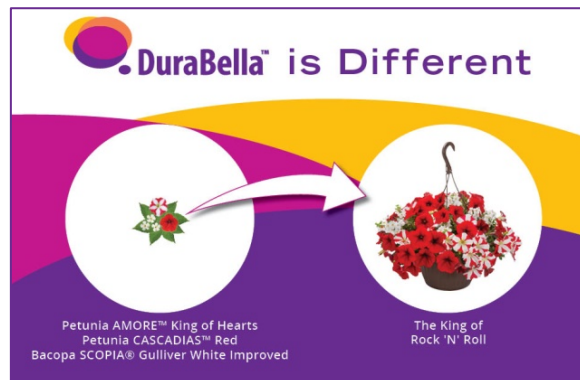

They will grow & blend well

finishing in the same amount of time as a traditional 6 liner planting

Less plants = less \$ input

A less dense root ball for lower water use and more longevity for the end consumer
